

SANS Institute is just one of many organizations that as a cybersecurity professional you will want to have access to their research and webcasts to keep current on particular subjects and vulnerabilities.

- Access the SANS Institute: <https://www.sans.org>
- Create an account to view any detailed blogs or on-demand webcasts
- Search for information on virtualization
- Review at least one blog post or listen to an on-demand webcast

Look at the latest news on the Internet Storm Center to understand what is going on Today in cybersecurity: <https://isc.sans.edu/newssummary.html>

Review podcasts and tools under the Internet Storm Center to make yourself familiar with what is available to you. <https://isc.sans.edu/podcast.html>
