OWASP Top 10 Project

As you just heard The Open Web Application Security Project (OWASP) has a Top 10 Project which describes the ten most critical web application security risks. In 2017 as part of this study, access control made the top 10.

Review A5:2017 - Broken Access Controlhttps://www.owasp.org/images/7/72/OWASP_Top_10-2017_%28en%29.pdf.pdf

Next look at two other articles on Access Control listed on the bottom of page 11 (one - OWASP reference and 1 - External reference) to see how you might research a specific issue that arises as part of your cybersecurity role.
