Forum of Incident Response and Security Teams (FIRST)

You can explore as you develop your cybersecurity skills if becoming a member of FIRST is right for the cybersecurity job or role that you ultimately desire or are hired to do for an organization.

Check out the member benefits

https://www.first.org/membership/benefits

You will also want to review the frameworks available from FIRST. The Frameworks are to assist organizations in building, maintaining, and growing capabilities of their CSIRT (computer security incident response team or PSIRTs (Product Security Incident Response Team)

These frameworks will be explored further in future courses.
